A MENAGERIE OF MONEY

An art gallery of wild animals, birds and fish has been chosen to appear on Canada's coins to commemorate the

centennial. The coins will be issued in 1967. The one-cent piece will carry a dove; the five-cent piece a rabbit; the dime a mackerel; the

quarter a wildcat; the fifty-cent piece is adorned with a wolf and the dollar with the Canada Goose.

quarter a wildcat; the fifty-cent piece is adorned with a wolf and the dollar with the Canada Goose.

'I Am The Prime Minister' So Dupuis Had To Quit

SHERBROOKE, Que. (CP) — Mr. Dupuis, former federal minister without portfolio, told the court at his trial Friday the circumstances of Prime Minister Pearson's request for his resignation as minister without portfolio.

Mr. Dupuis, accused of accepting \$10,000 from Roch Deslauriers, a chiropractor from St. John's, Que., in exchange for efforts to obtain a race-track franchise, said that on Jan. 30, 1963, Guy Favreau, then minister of justice, asked him to see Mr. Pearson.

When I met them, Mr. Pearson and Mr. Favreau looked at me and said, "I am sorry, Mr. Dupuis, but I must ask you to resign as minister without portfolio." At this point, he said, Mr. Favreau advised him that the RCMP was waiting for him so that they could go through his offices and his apartment.

Bargain Bombs Bought Back

WASHINGTON (AP) — The United States sold a West German firm 1,500 bombs as junk for \$12,500 two years ago and now is buying back 550 of them for \$114,500, it was learned today.

The defence department provided this information in response to questions about the transactions which Defence Secretary McNamara said Thursday indicate an shortage of bombs for the Viet Nam war.

Gerda Munsinger Not Invited To Gerda Munsinger Inquiry

TORONTO (CP) — The Globe and Mail quotes Mr. Justice Spence of the Supreme Court of Canada as saying that Gerda Munsinger has not been invited to appear before a commission investigating allegations that

she was involved with ministers of the Diefenbaker government in a manner creating a security risk.

The newspaper's story today followed an interview in Ottawa with Mr. Justice Spence, the man named to head the inquiry.

Search Goes On For Drowned Man

PORT ALBERNI (CP) — A search was to continue today for a longshoreman who was thrown into the water when a freighter rolled and shed its deck cargo here Thursday.

Missing and believed drowned is Arthur Dube, 38, of neighborhood "over the side" when the freighter Anchorage rolled away from the dock.

They said more than half its deck cargo of lumber went into the water. The freighter swung back and tons more lumber cascaded onto the dock, splitting like matchwood.

Seven Days Sheds A Pair — Grits Angry

OTTAWA (CP) — The Young Liberal Federation today fired off an angry protest to State Secretary Judy LaMarsh over the dismissal of hosts Patrick Watson and Laurier LaPierre from the television program, This Hour has Seven Days.

NEW YORK PROJECT IDEAS

Periscopes, Buzzers In 'Safe' Car

ALBANY, N.Y. (AP) — Recent inquiries into car safety features have thrown a spotlight on New York State's "go-it-alone" project to design a car aimed at cutting in half accidental highway deaths.

The first step, a \$100,000 feasibility study, has been completed. Engineers with the Republic Aviation division of Fairchild Hiller Corp. concluded it would be possible to build a car that would cut by at least 50 per cent the chances of death or injury in a 30-mile-an-hour collision.

They advanced 134 proposed changes, ranging from rewriting owners' manuals to new braking systems. Among the features the engineers suggested: —A rooftop periscope that would give drivers a clear view of traffic in front and back.

—A "swinging-gate" bumper designed to deflect other vehicles or objects on impact. —Collapse structuring of the engine and trunk compartments, to absorb shock before it reached the passenger compartment. —Roll-over bar framing around the passenger compartment, to keep the area intact if the car should roll over. —Windshield wipers for the rear window, and a defrosting system that would keep all windows clear of fog.

Smith Backs Off Won't Take Oil

A SALTY SUBMARINE SAGA POINTING UP SUPPLY PROBLEM

MOSCOW (AP) — The Soviet Military Journal this week reports a salty submarine saga. A Soviet passenger liner received a radio order to halt, sent by an approaching, unidentified submarine. "What the devil!" said the liner's captain. "We are in Soviet waters."

Embassy Attack Angers Chinese

JAKARTA (CP) — China today angrily denounced the attack on the Indonesian military leaders and the 2,000 Chinese Chinese rioters to "Hitlerite hordes."

China handed a protest note to Indonesian Ambassador Djawoto in Peking, the official New China news agency said in Tokyo. The note said that Chinese embassy staff member Chen Hsiao-shan was shot in the chest and seriously wounded during the attack Friday, the agency said.

The protest also charged that the embassy's first secretary, Lu Tsung, and four other Chinese officials were beaten up and injured as the attackers rampaged through the embassy compound, smashing windows and burning furniture and papers.

More than a dozen embassy staff members were reported seen early today in Jakarta International Airport on their way to Bangkok, Thailand.

3,000 Demonstrate In Da Nang Buddhists Threaten More Strike

SAIGON (CP) — About 3,000 demonstrators took to the streets of Da Nang today and demanded that Premier Nguyen Cao Ky's military government give way to civilian rule in South Viet Nam.

The noisy rally and march followed by a statement Friday at Buddhist leaders in Saigon reaffirming support of the government's election promise. The Buddhists warned demonstrations would follow if the regime did not keep its promises.

The Saigon Buddhist state made no reference to demands, voiced in the north, that Ky resign immediately and a transitional government take over until elections are held.

Inflation 'Invited' Opposition Says

NEW WESTMINSTER (CP) — Opposition leader Robert Strachan accused the Social Credit government Friday of encouraging labor conflict, inviting inflation and deceiving B.C. citizens.

Mr. Strachan told delegates to the opening session of the provincial party's convention here there must be a change in labor-management climate.

"I have nothing but contempt for the present government," he said. "It has deliberately written laws and adopted attitudes that create labor-management dissension, and then when trouble does arise, it tries to make political capital out of it."

Mr. Strachan, who stands for re-election to the provincial leadership Sunday, said Social Credit fiscal policies encourage inflation with its consequent higher prices and reduced purchasing power.

"The present government must be challenged and it must be condemned for its deceptive tax and economic policies," he said.

Will Sever Remaining Ties In Face Of New Pressures

SALISBURY (CP) — Prime Minister Ian Smith said today the tanker Ioania V's 18,000-ton oil cargo will not be pumped into Rhodesia because he does not want to aggravate the difficulties of Portugal and the ship's Greek crew.

In a broadcast, Smith also said Rhodesia will cut all its remaining diplomatic ties with Britain.

The Ioania V is anchored at Beira in Portuguese Mozambique and the British government has been putting pressure on the Portuguese government to prevent movement of her oil through the pipeline to Rhodesia.

The Beira port authorities put her under the control of Portugal last Thursday after both the Panamanian and Greek governments revoked her registration.

The broadcast was Smith's first formal comment since the arrival of the Ioania V at Beira 11 days ago raised the Rhodesian independence crisis to a new peak.

Smith admitted that oil aboard the tanker was meant for Rhodesia.

ACT NOT VALID Smith said last week's United Nations Security Council resolution authorizing Britain to use force to halt tankers believed carrying oil for Rhodesia is not valid because two permanent council members—France and the Soviet Union—had abstained from voting.

Before the resolution, a Royal Navy boarding party had tried unsuccessfully to persuade the cargo of 15,000 tons of oil.

Action On The Picket Lines Expected By Quebec Officials

MONTREAL (CP) — A week-end of activity was expected in Montreal's construction strike, the largest and potentially most explosive of a series of labor disputes which have left more than 18,000 Quebec province workers idle.

Representatives of the Confederation of National Trade Unions and the Quebec Federation of Labor, whose member unions work on the construction projects, were called by the provincial labor department to a meeting today.

An estimated 10,000 CNTU members are on strike. The approximately 20,000 QFL construction workers are not on strike but large numbers have not crossed CNTU picket lines.

A mass meeting of CNTU members Sunday night will hear a report from their leaders.

The strike has hit tens of millions of dollars worth of construction projects in Montreal, although work on Expo 67 is unaffected because of a no-strike agreement signed two years ago.

MAKE TALKS OFFER In other strikes: —Leaders of some 2,300 technical school teachers, facing legal action said they are willing to negotiate. The provincial government replied it is willing to negotiate, but only if the teachers return to work as ordered by a court injunction.

Some 3,000 construction workers at Hydro-Quebec's month-long Manicouagan-Outardes construction project remained off the job. Le Devoir says unionized engineers estimate the company has lost \$120,000 a day in interest on loans and wasted salaries since the walkout started March 15 over a dispute involving men on the job.

About 250 Hydro-Quebec engineers remained off the job. They went on strike Wednesday.

Some 5,000 workers at Dominion Textile's plants continued a strike that started six weeks ago. Wages and other contract benefits are the main issues at stake in the strikes. There will be no strike for at least three months by workers in Quebec hospitals. The unions Friday gave up their right to strike until July 1 and, together with the hospitals and provincial government, agreed to negotiate.

ROSE AT MORRIS The Red rose slightly at Morris Friday and held steady at St. Jean Baptiste, six miles to the south.

Flood co-ordinator Bob Wallace said it will be some time before an orderly and safe re-entry to Morris can be carried out — possibly not until the water level drops some four feet, the level at which all but essential personnel were evacuated.

Wallace said re-entry will not be permitted until all danger has passed. Some water behind the dikes, which now are holding back about 80 feet of water.

CRITICAL

T. C. Douglas, national New Democratic Party leader, said Friday night Parliament has done little but waste time this session. "In short we've been making fools of ourselves."

Valley John Howard Work Cost \$10,000 Last Year

VERNON—Last year the cost of carrying out the program of Okanagan Branch was \$10,000. Rev. John Howard, pastor of the John Howard Society of the Okanagan, said the cost of the program was \$10,000 last year. The program is a social service program for the Okanagan region. The program is a social service program for the Okanagan region. The program is a social service program for the Okanagan region.

PEACHLAND COUNCIL NEWS

Subdivision Plan Approved; CNR Rents To Increase

PEACHLAND—C. O. Whiston, chairman of the Peachland Council, announced that the council has approved a subdivision plan for the subdivision of lots 10 and 11 of his property. The plan provides for the subdivision of the property into 12 lots, each of approximately one-half acre. The plan also provides for the subdivision of the property into 12 lots, each of approximately one-half acre. The plan also provides for the subdivision of the property into 12 lots, each of approximately one-half acre.

PEACHLAND

A community dinner was planned Wednesday night at the monthly meeting of the United Church Women, held at the home of Mrs. W. Wilson. The dinner, which is to be held in the Athletic Hall this year, will be served from 5 p.m. to 8 p.m. May 6.

The christening of the infant son of Mr. and Mrs. J. Martin of Kelowna, took place Sunday at St. Margaret's Anglican Church, Peachland. Rev. Norman Tanner of Summerland bestowed the names, Vincent James, on the tiny boy. Godparents were Mrs. Martin's brother and sister-in-law Mr. and Mrs. Don Topham from Port Moody. A family tea was held later at the home of the grandparents, Mr. and Mrs. Fred Topham Jr.

Visiting at the home of Mr. and Mrs. J. Enns this week are their daughter Lou and her husband, Mr. and Mrs. Dave Dyck and four children from Valhalla, Alta. They will spend the next few days visiting relatives and friends in the district.

Mr. and Mrs. Vern Oakes and son Ricky have returned from their vacation at the Coast where they visited their three daughters: Mr. and Mrs. A. Zaccari of North Surrey, Mr. and Mrs. R. Macinlock of Haney, and Mr. and Mrs. J. Wilson of New Westminster.

Home again after a trailer trip to the U.S. are Mr. and Mrs. A. M. Moore. While on their travels they visited with their daughter Mrs. J. Brunsberg in Santa Anita, Calif. They also spent a month at Tucson, Ariz., making this their base while they went rock hunting.

Many Indians Leave Reserves Says Authority

VERNON (CPI)—Jack Cooper, regional supervisor of vocational training and special services for the Indian Affairs department, said there is a trend for Indian people to move away from the reserves.

He told the opening meeting of the North Okanagan Indian Brotherhood convention here Friday that 24 per cent of B.C.'s Indian population had left reserves to find employment elsewhere.

The exodus, he said, was continuing at a rate of three per cent a year.

Flow discussion included a call by various delegates for more availability of federal loans for Indians. One delegate accused Ottawa of "talking a good line but doing nothing."

Valley Teens Take Awards

NANAIMO (CPI)—The North Okanagan Teens Association walked off with most of the awards Friday at the 21st annual Teens Association of B.C. convention here.

Oliver took the award for best fund-raising. Armstrong, the top award for promotion, George Schaefer of Salmon Arm was named president of the B.C. group. Vic Moles of Langley was named vice-president.

Delegates from all parts of the province named 17-year-old Sue Falkenberg of Delta as B.C. Queen.

U.S., Britain And Germany In Joint Defence Talks

BONN, West Germany (Reuters) — Delegates from the United States, Britain and West Germany today got down to detailed discussions on how to preserve an effective defence system in Western Europe despite France's planned withdrawal from NATO's integrated military structure.

It was the second and final day of talks aimed at strengthening West Germany's hand in negotiations with France on the status of French forces in West Germany.

The French government plans to remove them from the NATO command by July 1.

Informed sources said there was full agreement among the nations in support of the basic West German position.

This is that French troops, in order to remain in West Germany, must have a clearly defined task in NATO planning, with the assurance that they will join fully in joint defensive action if necessary.

Valley Fruit Crop Is Looking Good

Prospects for a good fruit crop related to 1964 figures, and then in tree vigor and tree health, were affirmed Friday as part of a 20 to 25 per cent in the age last year.

Vegetable acreage appears to be similar to 1964.

Apples are expected to be near normal, John Smith, horticulturist, said earlier. The release says McIntosh bloom is heavy and production could be slightly above the 1964 total.

Common Delicious, Newtown and Red Delicious may show a decrease in production, largely due to tree removal, the news letter said. All healthy trees in the Okanagan are showing good bloom. The Similkameen crop may be one of the largest on record for both apples and pears.

Pentiction area anticipates 80 per cent of the 1964 crop of Bartlett pears and a full crop of Anjou. Summerland reports 75 to 80 per cent of the 1964 crop, if pollinating weather is favorable.

Some pear trees in the Similkameen area are expected to die during the next year or two as a result of trunk damage during the 1964-65 winter.

CHERRIES GOOD

Cherry blossoms indicate a good crop. Horticulturists say overall production may be less than in 1964, due to winter kill and subsequent tree removal.

Indications are for a heavy crop of apricots in all districts. Overall tonnage may be reduced as a result of tree removal. Prunes are showing good bloom and a normal crop is expected.

The release said it is too early to judge the manner in which grapes came through the winter, but condition is expected to be good. Due to new plantings, production could be above the 1964 level.

WEATHER HELPED

The newsletter says the past winter was mild with good snow cover in the hills. Fruit trees benefited from the mild winter and came through with no additional injury.

Soil moisture at the end of winter was "excellent" but warm dry weather in March and the first half of April started to dry out the surface soil. Heavy rains Monday eased this condition.

The potato crop may be down from last year, with vegetable growers restricting operations to greenhouse production of transplants for fields.

Planting of Warba potatoes is under way in the North Okanagan. Cabbage will be set out next week.

On Wednesday 20 members of the Pilgrim Girls, a junior division of a youth church group called Pioneer Girls, toured the Daily Courier with their leaders, Chief Guide Mrs. L. W. Thirak, Guides Mrs. Emil Esslinger and Mrs. Martin Hartog. The tour was to fulfill a requirement of a sight-seeing badge.

Parks and recreation classes at Kelowna and district schools have been cancelled until Easter holidays end for students. Schools are closed during the 10-day holiday and this has forced the cancellation, Jack Brown, director of the parks and recreation board said.

Harry Unger, of 1032 Leon Ave. and H. S. Robinson of Okanagan Mission were the winners of the door prize given nightly at the Kelowna Boys' Club 4th annual Sport Show, Mr. Unger was the winner Thursday while Mr. Robinson won the prize Friday.

Leslie Peterson, minister of education, and his wife were guests at the opening night of the Kelowna Boys' Club Sport Show. The couple arrived unannounced to tour the exhibits. Attendance at the show doubled Friday from a poor opening night crowd Thursday. An estimated 1,200 people were in Memorial Arena Friday.

Kelowna Convention Soon For Provincial Optometrists

Optometrists of British Columbia will hold their 42nd annual convention at the Capri Motor Hotel, April 24, 25, 26, 27.

More than 50 optometrists and their wives are expected to attend from various parts of the province, also guests from Alberta and Washington.

Mayor R. F. Parkinson will greet delegates at a welcome breakfast at 8 a.m., April 24. Attending will be Dr. Ted Kae, president and James Gilmour, executive, Canadian Association of Optometrists, and Dr. William McKelvie, president, BCOA.

Guest speakers include Dr. T. C. Gilmour of Kelowna, Dr. J. H. Dumas of Vancouver and Dr. Alfred Downing, Oliver will discuss visual fields under black light, and Schottz tonometry.

Registration will begin April 24 from 4 to 7 p.m. at the Capri. A City of Kelowna welcome reception will follow at 7:30 p.m.

Proceedings are being opened with business and a golf tournament. Golf rates and fee at the golf driving range have been arranged.

A banquet and dance will be held Tuesday at 7 p.m. The convention will conclude with a farewell breakfast Wednesday.

Merits Of Proposed Lease To Be Checked By Outsider

The Okanagan Regional College Council plans to hire an outside, independent expert to examine if it made a good business deal for a college area.

And a college spokesman said today the council is confident the expert will support the Westbank Indian Reserve choice 100 per cent.

Administrative assistant J. R. Egby told The Daily Courier today the expert from Vancouver will be asked to analyze the lease deal in full "so we can clear up an everybody's mind that we are doing the right thing." The expert's decision is hoped for by the end of this month.

LEASE LAND

The council plans to lease the area at \$100 per year per acre to the Indian band. The lease would cover a 100-acre area.

A Vernon group, the Citizens and Taxpayers Committee, says the council is making a mistake that this method would be far more costly than an outright purchase of property.

Land cannot be purchased only leased from the Indians, if an outright purchase proved more practical, the Westbank Reserve site would have to be abandoned, Mr. Egby says.

"We are sure the expert will back us up, but this is just so there won't be any misunderstanding by anybody," there has been a lot of figures and prices talked around and this should settle the matter.

College officials would name the outside authority, but college council chairman Frank Venables said he was a "former government man." Mr. Egby said it would not be proper to name him as he had not yet been officially retained by the council.

VENABLES' MOVE

Mr. Venables said today the council was progressing as quickly as it can under the circumstances it has to work.

He said the Vancouver and Kelowna colleges were advancing their claims because they had taken as long as the Okanagan did to determine a site location.

"It took a year or two for school districts to get together," Mr. Venables said. "It was a year or two for the Okanagan to get together."

He said the Vancouver and Kelowna colleges were advancing their claims because they had taken as long as the Okanagan did to determine a site location.

"It took a year or two for school districts to get together," Mr. Venables said. "It was a year or two for the Okanagan to get together."

Mr. Venables said the council was progressing as quickly as it can under the circumstances it has to work.

National Child Safety Day Aims To Cut Major Killer

An effort is being made by the National Safety League of Canada and the Canadian Highways Safety Council to wipe out fatal accidents, the greatest killer of Canadian children.

The two groups have joined together in sponsoring a National Child Safety Day May 1. The day will attempt to alert adults of their responsibilities in preventing fatal accidents to children.

The general manager of the National Safety League, Guy McLaren, said accidents take the lives of more Canadian children than all other leading accident causes combined. He said child accidents are most frequently caused by a chain of events and rarely by a single factor.

"Emotional factors, such as a mother's worry or a child's carelessness are heavy contributors to Canada's tragic toll of young life," he said.

They Agreed To Participate

"They agreed to participate in the college on the terms of the Giles report, at the time the petition was presented," Mr. Venables said.

The college group in Vernon has made formal application to the college council for a re-assessment of the college site.

There has not yet been a full council meeting to discuss the request, Mr. Venables said.

CHAIRMAN SPEAKS

Mr. Venables, today also answered the minister of education's comment. He said:

"This minister has said what we have known for a long time. We have progressed far and fast in developing curriculum, needs and costs, and other necessary arrangements."

"But this site bugaboo delayed our start and now appears to be endangering our future. We're working and planning hospital."

For the entire region, but this being drunk in public and being region has to stay united and in a responsible manner in seriously hurt."

He was reminded to April 20 to get cracking and get this thing done for our children, other suites.

'MOBILE' CANCER FUND CAMPAIGN

Mrs. James Donald does her canvassing by bicycle in Okanagan Mission for the Kelowna and district cancer campaign. Volunteers will make a door-to-door canvass for the \$10,000 objective to the end of April. The campaign began Thursday and is part of a province-wide fund drive.

Easter Is Past, Now: What About Next Week

Hiding her shame behind the dark garments of the mourning heavens, earth trembled then began to quake violently. A wall of agony rose through the gloom beyond the city wall. Silhouetted against the lightning on Golgotha's brow a cross displayed its tragic burden—the body of Jesus.

To the tattered remnant of the Lord's followers the Crucifixion appeared to be the personification of crushing defeat. Yet, scarce three days later God showed that it was actually the birth pang of history's most significant triumph. Life stirred within a rock-hewn tomb and the same Jesus burst into the world as alive as ever he had been before.

On a bright Sunday morning two thousand years ago the cry rang out "He is risen." With such enthusiasm was this news received that it has echoed across the wide centuries since. It is still a living headline today.

Christianity hinges upon the fact of our Lord's return from the dead. You ask, "Why?" The answer is at least twofold.

First: Living Faith is based upon the divinity of Jesus. If not divine, He was a cruel hoax. The resurrection of Christ declares unwaveringly that Jesus of Nazareth was God incarnate.

Many men have spent their lives as itinerant preachers of unpopular philosophies. Thousands, beside this young Jew, met death on rude stakes and Roman steel. But only one shattered the solemn silence of death,

never to die again. "Truly this was the Son of God."

Second: Living Hope is based upon God's power to give life after death. When Christ emerged from the grave, He thereby demonstrated this power. Time bears away all her sons, and sadly, their memory also.

Life's shadows would be unbearably dark if the cold, lonely confines of a forgotten tomb were all to which one could look forward beyond the pale of human existence.

Because God raised up Christ, we rest with the warm assurance that He can one day call us from death unto life. "God hath granted unto us a living hope by the resurrection of Jesus Christ from the dead."

To the early church the resurrection was not the occasion for a yearly celebration. It was much more. All new converts were figuratively "trained with Christ." They remembered the passion in a weekly communion service. The resurrection was equally vital. It was the basis for the faith which gave meaning to their "today's."

It was also the reason for the hope which made bright their "tomorrow's."

God grant that we also, who ache from the stress of the 1960s, may realize how indispensable is this risen Christ. How much more meaningful our religion would be if Christ received every Lord's Day the concentrated attention that was focused upon Him last Sunday!

—Mr. Lynn Anderson, Kelowna Church of Christ.

Lost Weapon

(Portland Oregonian)

A lady, whose age it would be ungallant even to guess at, points out that the list of weapons which the Portland police propose to teach women to use in self defence does not include the most effective one of all—the hatpin.

Reason for the omission is that the hatpin has virtually disappeared. Some women never wear hats and many only occasionally. When hats are worn, they are kept in place with small combs. Women nowadays don't have the solid buns on top of their heads which made Grandma's hatpin a superb anchor. They have nothing to push a hatpin through except a frothy, bouffant coiffure which, itself, often is not firmly attached to the head. A hatpin pulled suddenly from such a get-up quite probably would bring the whole works with it.

However, there is another pin in common use, says our informer, which

is next best to a hatpin. It is the rather large, sturdy pin with which mums and larger corsages are fixed to a costume.

We suggest that Police Academy Capt. William Taylor include this weapon in the arsenal which Lt. James E. Harvey and other officers will assemble for the four-week course beginning April 4 at Grant High School gymnasium. Instruments of defence listed so far include rat-tail combs, high heels, hairbrushes, fingernails, teeth, legal knives and heavy shopping bags. In addition, the ladies will be instructed in karate and judo.

Maybe another weapon Grandma knew well could be carried in the shopping bag or the kind of gigantic handbags many women now use. It was of solid wood and cylindrical in shape. It was a common article in the kitchen in the days when women made their own pies and when they could use the streets with little fear.

Bygone Days

10 YEARS AGO

April 1956

L. A. Potterton, special traffic officer for Kelowna, writing in the Courier on auto fatalities, reported that figures compiled in the U.S.A. from 1948 to 1955 showed that 1,130,335 Americans died in their country's wars in that time, but from 1900 to 1955 1,149,414 Americans had died on the highways.

20 YEARS AGO

April 1946

The Women's Auxiliary to the 9th Armored Regt. wound up their organization at the final meeting held in Vernon, attended by Kelowna members also, and Col. Angle. Mrs. Husband presided. The auxiliary had raised \$7,338 since the beginning of the war, in Armstrong, Vernon, Kelowna and Penitence.

30 YEARS AGO

April 1936

Mrs. Dorothy Waddingham, mother of five children, was hanged in Britain for the poison slaying of a 55-year-old woman patient in her nursing home. A wave of protest was raised in Britain over the case, one of her children was a six months old baby. Sir John Simon, Home Secretary, refused a clemency appeal.

40 YEARS AGO

April 1926

The lacrosse meeting this week had to be postponed for lack of interest. The attendance was confined to older players who were planning to drop out. If lacrosse is to continue, younger players are needed. A committee of R. Watt, W. Speer and J. G. McKay was appointed to look into the situation.

50 YEARS AGO

April 1916

The Kelowna Volunteer Reserve has

received word from the OC of the 102nd Regt., that Sgt. Chaplin will be allowed to remain here as instructor, and to look after recruiting for overseas. The old Willis Block on Ellis Street is to be the barracks, and Sgt. Chaplin's headquarters.

60 YEARS AGO

April 1906

A meeting to form a local branch of the Women's Christian Temperance Union was held in the Presbyterian church. Mrs. Spofford, WCTU organizer gave an address. Officers elected were: President, Mrs. Hecker; vice-presidents, Mrs. Calder and Mrs. Fuller; secretary, Mrs. Herdman.

In Passing

If human nature continues to operate after the meek inherit the earth as it does now, those in charge of running it will soon become decidedly unmeek.

About all most of us know about space exploration is that men will never run out of space to explore.

Query to psychologists: Are people who cheat at solitaire ever conscience stricken for doing so?

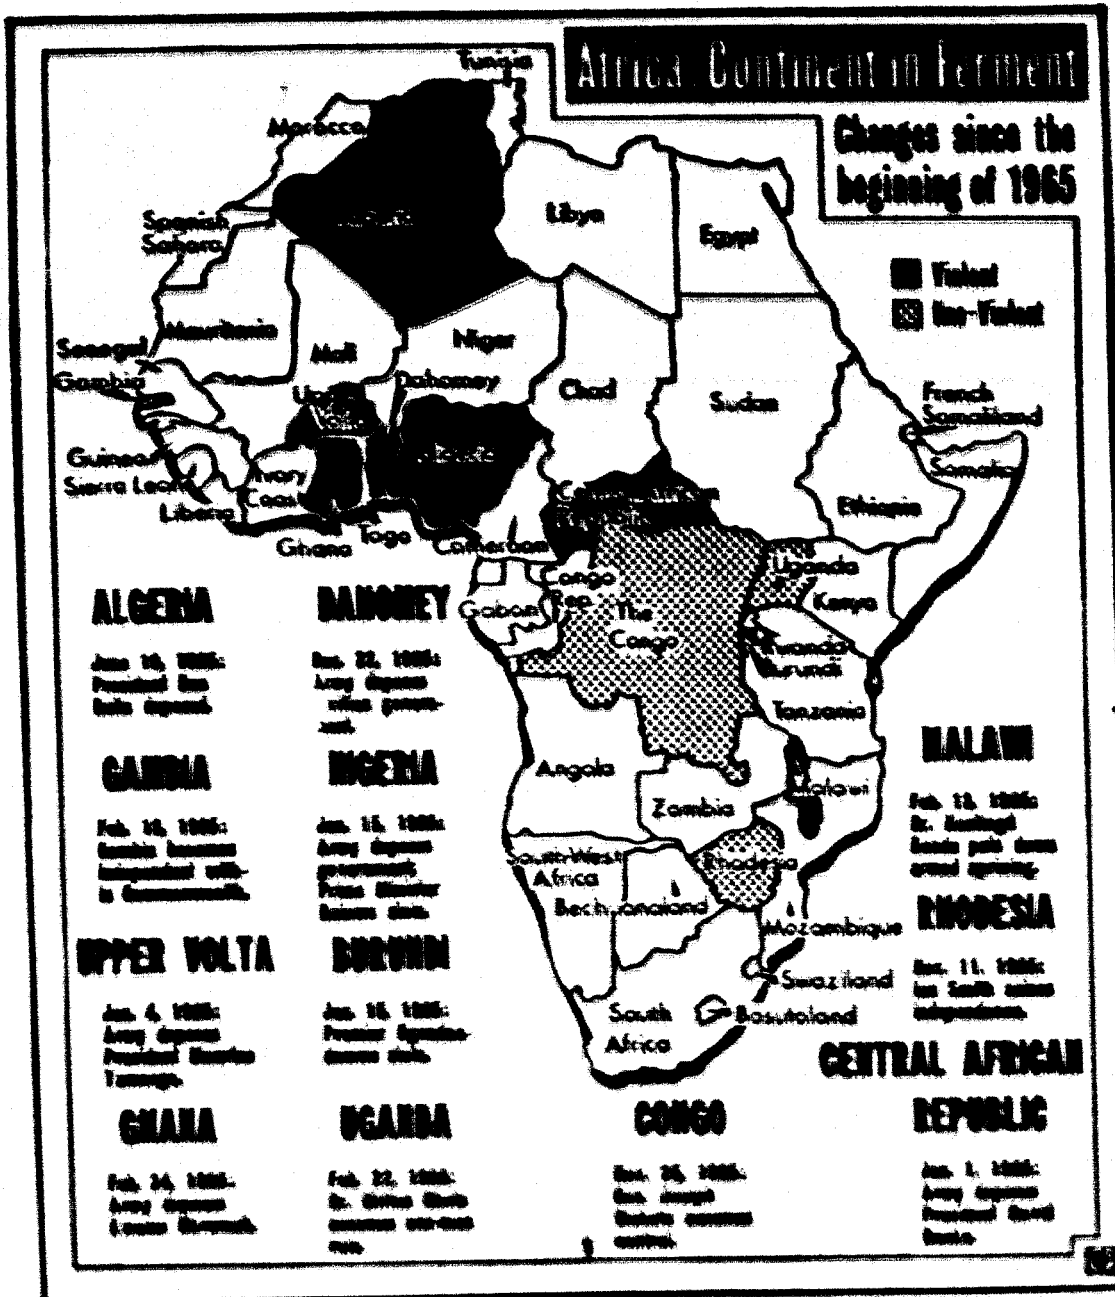

It never occurs to the self-styled experts who are telling us what the world will be like by the year 2000 that it may not be.

Middle age is a period a person thinks he has reached when he has passed it.

Reading that stars eventually die, Old Sorehead said, "That must have been what happened to the star I hitched-my-wagon-to."

Woman Given Divorce Because Husband Sleeps in Tree.—Headline. Moral: If matrimony gets you up a tree, sleep in it.

"Do you know what is the worst thing that could happen to the world?" asks a columnist. No, but we believe we know what's the worst thing that has happened to it up to now, namely, people.

ARMY UPHEAVALS SPREAD

Since the beginning of 1965 some dozen African countries have gone through an overthrow of government. A few

have been quiet but most have been accompanied by violence. In most countries the army, disillusioned by

corruption, extravagance and ineptitude has been the motive power. (CP Photo)

Pan Am's Planned Big Jetliner Made Air History This Week

NEW YORK (AP)—Aviation history was made this week when Pan American World Airways placed an order for a jet airliner much bigger than any currently in service.

Pan Am ordered 25 of the planes from the Boeing Co. at a cost of \$125,000,000—the biggest aircraft order in history. The plane—to be known as the 747—will be capable of carrying 400 passengers. Its cargo

version will carry 214,000 pounds of freight, double that of existing planes.

Pan Am's current Boeing 707-320C jets carry 174 passengers. Douglas Aircraft has a flight tested a "stretched" DC-8 that carries 121.

The 747 will reach a speed of 433 miles an hour, 10 per cent faster than current jets, fly at an altitude of 45,100 feet, nearly a mile higher than present transports, and have a range of 6,000 miles.

Juan T. Trippe, Pan Am chairman, said the plane's operating costs would be up to 35 per cent below those of current models and that lower passenger fares and cargo tariffs could be expected.

After announcement of the order, prices of the common stock of Boeing, Pan Am and United Aircraft, whose Pratt and Whitney Division will produce the 747 engines, rose sharply on the New York Stock Exchange.

There were many high fliers on the stock market during the week, particularly on the American Stock Exchange, where some issues posted gains of 20 points.

Trading volume was heavy. Thursday it soared to 6,640,000 shares on the American exchange, exceeded only in two sessions in October, 1929. The same day volume on the New York Stock Exchange totalled 13,010,000 shares, third highest in history.

Automobile production soared to an estimated 210,700 passenger cars this week, up 48.1 per cent from last week, when assembly lines operated only four days because of Good Friday, and up 35.5 per cent from a year earlier, also a four-day week.

TO YOUR GOOD HEALTH

Three Types Of Glands —All Different Duties

By DR. JOSEPH G. MOLNER

Dear Dr. Molner:

I have been told that there are three kinds of saliva in the mouth and each works on a different kind of food. Is this true? Which foods?—R.S.

Not exactly right. Rather than three kinds of saliva, there are three groups of salivary glands. A pair under the tongue (sublingual); two under the cheekbone (submandibular); and two further back (the parotids), those affected by mumps.

The parotids give off a watery material, the sublingual a more mucous type, and the submandibulars a mixture.

The only ingredient that helps digestion in the mouth is ptyalin, an enzyme which starts the breakdown of carbohydrates and starches. However, most of the digestion of starch takes place in the small intestine.

This enzyme in the saliva does not take part in digestion of protein and fats. That begins in the stomach and intestine. Saliva has other functions: To moisten food, lubricate the membranes of the mouth, and to cleanse the membranes.

Dear Dr. Molner: Mrs. V.B.'s letter about her wafelike baby prompts this letter. We, too, discovered that we were rearing a tyrant at the expense of his health.

Due to a severe illness when she was two weeks old, I hovered over her crib night and day, soothing her at the first sign of crying.

This pattern continued long after she was well and past two years old. I then announced to her and the family that I had to have some unbroken sleep and I told her not to call me.

For a while all was quiet. Then began the usual plea for a drink, for pretty, and finally the wailing began, increasing in volume, then pausing to listen for my response, then more wailing.

My husband and I sat through five solid hours of sound that night, three hours the second night, 15 minutes the third. We were exhausted but the habit was broken. She is a fine, adjusted young woman today. Parents don't have to be martyrs. The right type of firmness can mean a better adjusted child later.—MRS. H.C.S. Q.E.D. Thank you.

Dear Dr. Molner: What if a cooked turkey is refrigerated at night, and taken from the refrigerator later and left out for 24 hours? Would it be safe to eat? Also what about removing the stuffing after the bird is cooked?—M.M.

The meat of the turkey probably would be safe to eat after 24 hours, except under unusual circumstances, but personally I would prefer not to take a chance.

Stuffing is another matter, particularly if it contains egg, which is an ideal medium for bacterial growth, and after 24 hours at room temperature you certainly could not be sure it was safe.

Stuffing can be removed and refrigerated, but getting all of it out, without leaving some traces, is problematical.

Thus for safety, it is best to keep bird and stuffing refrigerated rather than taking a chance. There is no rule better than "keep it hot, keep it cold, or don't keep it."

TODAY in HISTORY

By THE CANADIAN PRESS

April 16, 1966 . . .

Bonnie Prince Charlie's attempt to seize the throne of his Stuart grandfather was crushed 220 years ago today—in 1746—at the battle of Culloden. About 9,000 Hanoverian soldiers, commanded by the Duke of Cumberland, defeated 15,000 Jacobites.

The Scots attacked with the claymores, under fire from 18 cannons, and were cut to pieces by the well-drilled soldiers. About 1,000 were killed and 1,000 more captured, against Cumberland's 50 killed and 200 wounded. His later measures to suppress the Stuart cause in Scotland earned him the nickname of "Butcher" Cumberland.

1521—Luther arrived at the Diet of Worms.

1862—Napoleon III of France declared war on the Mexican Republic.

First World War

Fifty years ago today—in 1916—German troops forced the passage of Kara Doro, on the Black Sea coast, Italian armies prepared to

attack Trent through two river valleys.

Second World War

Twenty-five years ago today—in 1941—British units in Greece were forced south of Mount Olympus; the RAF in Greece had only 46 serviceable aircraft left; London underwent an eight-hour air raid setting a record number of fires; Tobruk was attacked again; Prime Minister Mackenzie King conferred in Washington with President Roosevelt.

April 17, 1966 . . .

Fifty years ago today—in 1916—Russian forces occupied Trebizond, on the Black Sea; an estimated 3,000 Turks died attacking British lines on the River Tigris; there was heavy fighting east of Verdun.

Second World War

Twenty-five years ago today—in 1941—eight RAF bombers and two German fighters were shot down during a raid on Berlin; British ships shelled Axis positions in Libya; the Greek-Italian defence line was pressed further south in Greece.

LOOKING BACK WITH OLD STAGER

Old-Time Judge Well-Known Here

By ART GRAY

It was in 1866, 100 years ago, the year that British Columbia and Vancouver's Island were united as one Crown colony—an event that we are commemorating this year—that John Carmichael Haynes, of Osoyoos, or "Scopyos" as it was then called, was appointed a County Court Judge. As "Judge" Haynes he was known throughout the Boundary country as a strong but just man. He had spent just seven years in British Columbia at that time, and was in his thirty-fifth year. Born at Landscroft, County Cork, Ireland, the son of James Haynes and Hester Haynes (nee Carmichael) he had an uncle, James Carmichael of Hyndford, who was a man of influence, and was also a personal friend of Charles Brew, formerly of the Irish Constabulary, who had a short while previously been appointed the assistant police officer for the far away Crown colony of British Columbia. At the age of 27, armed with testimonials from Irish friends of Brew, and filled with stories of gold mining in the new colony, he sailed for America. He made his way to his old parents, whom he never would see again.

On Christmas Day 1855 he reached San Francisco, and from there proceeded by steamboat to Victoria, presented himself to Brew, who in turn introduced him to Governor James Douglas, who was governor of both Vancouver's Island and British Columbia colonies. Fort Langley was the capital of the mainland colony at that time, but a new capital, Quebec, was shortly to be renamed New Westminster, was soon to be selected. "Because of its stronger defensive position, on high ground north of the Fraser River, in preference to Langley, on the south side, and vulnerable to attack by the Americans from across the river," Gold had been discovered at Yale on the Fraser River, and miners were flocking in, mostly from south of the border. Haynes was soon enmeshed as a constable, and left with Charles Brew for the Fraser in January 1856.

The so-called "Ned McGowan War," a much exaggerated affair, which was really little more than disorders amongst the miners themselves, near Yale, alarmed Victoria, and Colonel Moody with 25 of his Royal Engineers, and 100 blue-jackets from HMS Satellite, a modernized sort of name for a naval vessel of 50 years ago, were hurried to Fort Langley, and the trouble subdued. Incidentally, anyone interested in historical sites, driving along the new highway to Port Moody, will find, if they can slow down long enough to make the side journey, that the restored Fort Langley is well worth a visit. Charles Brew and his two constables, Haynes and Thomas Elwyn, soon joined by Constable W. G. Cox, were given the highly unpopular job of trying to collect a tax on all gold that the miners had recovered from the bars on the Fraser. Brew being also the Chief Gold Commissioner.

Mining on the Fraser slackened off, but in the summer of 1859 gold was discovered in the "Shimikameen" as it was then spelled, and also at Rock Creek. Cox was sent to the latter place as Gold Commissioner and Justice of the Peace, in charge of the whole boundary area, and Haynes was sent as his aide, and was placed in charge of the Shimikameen Customs Station. He received a salary of 250 pounds, B.C. then being a "pounds, shillings and pence" area.

The discovery of gold in the Cariboo soon changed the situation at the border. Rock Creek was deserted, and the Osoyoos became the highway for miners, traders and cattlemen heading for the new "Cariboo". Cox was sent to duty elsewhere, and Haynes put in charge, and his headquarters shifted to Osoyoos. This was about the time that Ed Lequame closed up his store at Rock Creek, and headed occasionally, for the Cariboo, but was persuaded by Father Pandey, to change his mind and establish his store at Osoyoos. Osoyoos became a busy spot for a time. In the month of May 1860 no less than 900 horses, 200 mules and 600 head of cattle were imported, and in the course of that year duty paid on 9,265 horses, cattle and sheep brought a revenue of \$11,000 in American money. (Vancouver Island changed to a dollars and cents currency in 1860 and B.C. in 1866 as any gold stamp collector will know.)

Ranching and agriculture started up in isolated areas, and as early as 1863 Haynes had sent samples of wheat and oats, grown at Osoyoos, to the first Agricultural Exhibition in Victoria.

In 1864 a gold rush took place at Wind Horse Creek, in the Kootenays, and Haynes was sent there. When he arrived there were 1,000 men there, most of them from across the border. One group of claims was employing over 100 men and producing \$4,300 in gold daily. Others were less profitable, and some claims jumping had been taking place.

A shooting affray had occurred just before his arrival, and one man had been killed and several wounded. Haynes, with the aid of a few shrewd elements, soon restored order. A total of three men was held, "Overland Bob" East, "Powder Bill" and concrete evidence they were Arthur Dougherty, but for lack of qualified Haynes was not one who would hang a man on unreliable evidence, just as an example. To restore order, Haynes, however, collected substantial sums in cash and gold for mining licenses, and duties on the large amount of equipment that the miners and syndicates had brought in. He kept the money and gold in an old portmanteau, in his log headquarters. About this time "Judge" Haynes, as he became known to everyone, was made a member of the Legislative Council of B.C., and left to attend the sessions, held in New Westminster Dec. 1864 to April 1865.

Next week: "Judge Haynes Acquires a Ranch and Marries."

BIBLE BRIEF

"He that believeth on me, the works that I do shall he do also; and greater works than these shall he do."—John 14:12. God give us faith to believe and courage to practice it. "Greater is he that is in you than he that is in the world."

CANADA'S STORY

Riel Followers Paid Penalty

By BOB BOWMAN

Although the Red River uprising was over when General Wolsey arrived on August 24, 1870, Riel was far from finished. When Wolsey got to Riel's house, he found the birds had flown leaving uneaten breakfast and Lepin's moustache cup on the table. They had crossed into the U.S.

Riel was back two weeks later, and had a meeting with Metis leaders at the Riviere Sale. His aide William O'Donoghue wanted Riel to sign a petition addressed to President Grant in the U.S.A., asking him to take over western Canada. Riel refused to sign, and that ended his friendship with O'Donoghue. President Grant eventually turned down the petition, and O'Donoghue then worked with the Fenians, to get them to invade.

The heat on Riel was getting warmer. Some of his men who had taken part in the execution of Thomas Scott were killed. Elzeir Goulet was chased through the streets of Winnipeg by some soldiers, who threw stones at him while he was trying to swim across the river. He was drowned.

Francois Gullimette, who had put a bullet through Scott's head when those of the firing squad had failed to do the job, was killed near the U.S. border. Andre Nault, who owned the farm where Riel stopped the surveyors, was bayoneted.

Riel hung on, and was nominated to be the member of Parliament for Provencher. Then Sir Etienne Cartier was beaten in Montreal, and Sir John A. Macdonald asked that a safe seat be found for him in Manitoba. Riel withdrew in favor of Cartier, who was elected. Riel thought his withdrawal would earn him an amnesty from the government, but nothing happened.

Cartier died in 1873, and there was a by-election. Once again Riel was nominated and won by acclamation. He died and took his seat in the House of Commons. He was elected again in the general election of 1874, when the Macdonald government was beaten. This time he went to Ottawa and signed the register of members. He was still a fugitive from justice, and hid in Montreal until he knew what was going to happen. On May 16, 1874 the House of Commons expelled him as a member by a vote of 123-68, and Riel then left for the U.S.A., where he stayed until he returned in 1884 to lead the Northwest Rebellion.

OTHER EVENTS ON APRIL 16:

- 1512 Robert left for Canada with three ships and 200 colonists.
- 1730 Le Verendrye sent sons to explore river, opening into Lake Winnipeg.
- 1835 Erie and Ontario, and Hamilton-Port Dover Railways incorporated.
- 1853 Toronto Locomotive Works complete the "Toronto" first locomotive built in Canada.
- 1856 Governor Douglas announced that gold had been discovered in B.C.
- 1874 Guelph Agricultural College and Experimental Farm opened.
- 1887 Welland Canal opened for navigation.
- 1895 Chatham, Ontario, incorporated as a city.
- 1903 Canada retaliated against Germany by raising tariffs on wheat.
- 1935 Mine explosion at Stellarton, N.S., killed seven.

THE CHRISTIAN CHURCH

ILLUSTRATED SUNDAY SCHOOL LESSON By Alfred J. Besseler

Scripture—Matthew 16:13-19; 1 Corinthians 1:15-20; 1 Peter 2:4-8

Though there is a diversity of gifts, administrations and activities among churches, they all have the same end: God—1 Corinthians 12

The Church is the body of Christ and He is its head. Because He was first-born from among the dead, He has preeminence in all things—Colossians 1:15-20

Christ is the cornerstone of His church. His death brought about forgiveness of human sin and through Him man is reconciled with God—1 Peter 2:4-8

Christ was the light of the world. As His followers we are children of light in the midst of a darkened world—1 Peter 2:9, 10

U.S. Theology Student Speaks To Youth Group

A fourth year Theology student during the summer in a mission field, Edward Royatt, from Walla Walla College, was the guest speaker at an afternoon youth group meeting in the Kelowna Seventh-day Adventist church last week. Accompanying him was Ralph Kneiber and Michael Osterme, the leader of the Walla Walla Missionary Volunteers of Kelowna. Other missionaries followed and now there are each year the association at seven churches among these college sponsors a student people.

Mr. Royatt was kept busy preaching and teaching. He found great contrasts there. Kelowna is the capital with European architecture. The cars, houses and barefoot boys with transistor radios traverse the streets. Bicycles are one of the main modes of transportation.

The inhabitants are from Britain, The Netherlands, India and Africa and the native Indians. Sugar cane growing is one of the main industries. Pineapples are grown and bananas.

Edward will graduate in June. Next year he will attend the Adventist University in Berrien Springs, Mich., where he will receive his Master's degree in Theology. Then he plans to return to South America. Eight students will be sponsored this summer in missionary projects.

Seagoing Men A Kind Group

HALIFAX (CP) — In Canon Brunley J. Williams' estimation, seagoing men are "a kindly race—nature's own gentlemen."

The seamen themselves return the compliment. They've affectionately dubbed him "the salty parson."

Canon Williams, 63-year-old native of Cardiff, Wales, has been pastor of the Anglican Church's Mission to Seamen here for 11 years.

Every morning, no matter how inclement the weather, he can be seen striding along piers and up the gangplank of some ship in port.

He tries to visit every freighter that calls at his "salt water parish" and speak with as many of the crew as possible. There is always an invitation to visit the mission shore for billiards, a dance, movies, books or just a chat.

The invitation is issued with regard to the crew's religion.

Toronto Site Of Milestone For Gideons' International

An historic milestone is being commemorated this week as the five millionth Scripture is placed in circulation by The Gideons International in Canada. A beautiful gold-covered Bible will be presented to the management of the Royal York Hotel, Toronto, at a special function April 23.

Travellers, hospital patients, inmates and many others are aware of the activities of The Gideons but few know how this organization started its world-wide operations.

A bedtime conversation between two Christian seamen, who were sharing a room in a crowded hotel, led to the founding of the well-known lay move-

CONFUSED?

Many Christian faiths today are directed by the logic of business rather than the Commandments of Christ. The message of salvation has been mutilated, twisted and altered for the gratification of man's own pride. If you are honestly seeking the truth do not depend on the middle man but rather study your Bible personally, thoroughly and continually. In the scriptures you will find a truth in the plan and purpose of God that will stand against any and all false doctrines.

WORSHIP SERVICE

2nd Anniversary of Kelowna Realty Ltd.... Meet The

VERN SLATER

Mr. Slater was born in New Westminster and moved to Vancouver at an early age, where he received his education. He joined the Vancouver City Police in 1937, serving with the force until 1941, when he joined the RCAF. He served with the air force until 1945, when he was discharged. He rejoined the Vancouver police and served with the force until 1947, when he bought an orchard at Okanagan Centre. In 1958, still owning the orchard, he joined the Fruit Growers' Mutual Insurance Co. and stayed with the firm until 1959. That year, he joined the Associated Investment Co. of Canada Ltd., and was with that organization until July of 1963, when he joined the staff of Kelowna Realty Ltd. Vern graduated from the UBC real estate course. He has two daughters, Beverly, 14 and Jean, 16. Mr. Slater lives at 421 Birch Ave.

W. (BILL) KNELLER

Bill Kneller was a very successful orchardist prior to entering the real estate business. It is only natural that a client thinking of buying a farm or orchard should turn to Bill for advice. Bill was born in Manitoba and received his education there. He was engaged in grain farming in Southern Manitoba before moving to Kelowna 10 years ago. He successfully operated a fruit orchard in East Kelowna for many years. Bill started in the real estate field in 1963 and has been with the firm since its inception. He has made it his business to become very familiar with orchard and ranch properties throughout the Okanagan Valley. Mr. Kneller is married with one daughter and two sons and he is residing in the Rutland area.

MRS. P. BARRY

You will enjoy meeting Pearl and discussing your real estate problems with her. Mrs. Barry came to Kelowna after successfully operating motels and resorts in the Edmonton area. She has operated her own motel in Kelowna before joining the firm of Kelowna Realty Ltd. and is very familiar with all aspects of the motel trade. She can offer good sound advice on the purchase, operation or sale of your motel. Pearl has the natural talent of visualizing the potential of a property. Mrs. Barry is also active in selling residential properties, presenting these from the woman's viewpoint. Mrs. Barry owns her home on Richter street and hopes clients will feel free to discuss their real estate opportunities with her.

G. E. (GORD) FUNNELL

Mr. Funnell was born in Manitoba and educated in Manitoba in the province of Manitoba, where he owned and successfully operated a restaurant and service station. He is extremely proud of the Kelowna area—in fact he travelled from Manitoba to Vancouver Island looking for the "ideal" place to live and like so many others, chose Kelowna. Mr. Funnell is married, with three children and resides at 1532 Finlayson Crescent. Gord is very familiar with restaurant and service station businesses and is willing to assist you in any way possible if you are interested in buying or selling. He also has a good knowledge of the homes available and invites your enquiries.

LILLIAN HANKINS

In every organization, there must be a bright spot and for Kelowna Realty Ltd., it is Lillian Hankins, 18, the receptionist. She was born and educated in Summerland, where she graduated from Grade 12. She then attended the Kelowna B.C. Vocational school, where she graduated from a general commercial course, going to Kelowna Realty as a receptionist. Her father is C. B. Hankins, Summerland, a Safeway (Canada) Ltd. employee. Miss Hankins is the person who brightens the office with her welcome smile each time a customer enters the door and it is her cheerful voice that callers hear on the telephone. She lives at 1801 Bowes St.

JOHN FEWELL

John was born and educated in Regina, Saskatchewan. Moved to the Okanagan Valley in 1948 and worked in the fruit and vegetable industry until joining Kelowna Realty in 1964. John has wide experience in the accounting and office management field and is qualified to discuss the financial aspects of any business you are interested in purchasing. Mr. Fewell, because of his wide experience, was appointed controller of the five concerns associated with the parent company at 243 Bernard Ave. John is married and has three children. He lives on the West Side of the lake.

BRIAN KANE

Brian is a recent addition to the Kelowna Realty Ltd. staff. He has considerable experience in estimating, surveying and land development. He was raised in Kelowna and has much knowledge about the city. He spent the last 10 years in Victoria. He has three children, Danny, 3, Tommy, 3 and Jamie, 2. His wife's name is Denise. Mr. Kane invites all Kelowna residents to contact him for advice or assistance regarding real estate transactions in Kelowna and district. He is another in a staff of experts ready to serve the public.

MARVIN DICK

Marvin is an expert in farm property. He was born, raised and educated in Bonaville, Alta., a farming community. After his high school education, he went into farming, operating a combination wheat, farm and poultry ranch. He married in 1944 and farmed until coming to Kelowna in 1964. In Kelowna, he formed Kelowna Excavating and operated the company until the spring of 1965, when he joined the staff at Kelowna Realty. Marvin has four children, Douglas, 11, JoAnn, 10, Murray, 10 and Denise, 7. The family lives in R.R. 5. Mr. Dick has had much experience in the farming industry and is highly qualified in it. He will be more than happy to help you with your requirements.

VALUES GOING UP

Now Is The Time

Circumstances have seldom been more favorable in Kelowna for buying a new home than they are right now.

Kelowna's population continues to expand at an impressive rate. Desirable land for a building site is limited, and new homes are more likely to increase in value while you own them than any other personal property.

Building a new home is the one investment that a person can use and enjoy all through the "investment period," enjoying the comfort of a new home while it makes them money.

Many financial experts claim there is no better way to invest money than to use it for a new home.

Now, naturally, as in any other business, there is good and bad in home construction. Some contractors have a tendency to "bluff" through their work, taking no personal interest in the quality of the home they erect. They are doing it simply for the money involved.

This is not so for Bill Lucas, head of Okanagan Pre-Built Homes Ltd. Mr. Lucas is a craftsman who has had quality in craftsmanship drilled into him since his primary education in Holland many years ago.

He was taught to take pride in his work, regardless of what it might be and to see that everything was done to the utmost in quality.

When he left elementary school, he took a four-year course at a technical school, learning to draw intricately detailed plans and how to make cabinets, windows and doors.

He then worked for seven years as an apprentice under one of Holland's most renowned architects, learning to draw

BILL LUCAS

and design on the same level as his employer.

When he completed his apprenticeship, he felt he still was not working to his full ability, so he returned to his studies and completed his architectural training, becoming a licensed architect in Holland.

He then came to Canada, settling in Westlock, Alberta. He inquired about becoming licensed as a Canadian architect, but when he saw the "red tape" involved from coming to one country from another to practice, he decided to go into the contracting field.

Being fully qualified in this vocation, too, he soon was well-known in Alberta for his building talents. He formed Lucas Construction and worked under that name for four years.

He then decided to come to Kelowna, where the building trade was flourishing and the climate was balmy.

He continued with Lucas Construction in Kelowna, and once

again was soon in great demand by people wishing to have homes built.

In 1963, he decided to form a new company, named Okanagan Pre-Built Homes. While the name might suggest that this firm deals strictly in pre-built homes, it is far from correct.

Mr. Lucas is doing a "freezing" business through this firm as a man who both designs and builds homes. He has a unique method of doing this.

Being a contractor and an architect, he does all the work himself. He has no rigid rules to follow for house building. He is always searching for new ideas and new plans, designing each home to the people who are going to live in it, rather than trying to fit the people to a specific floor plan.

Mr. Lucas is not strictly a high-priced contractor but also does low priced work, building some homes costing \$9,990.

However, he is quick to point out that whether the home he builds is high or low priced, it receives the same consideration and top quality craftsmanship as another.

SALES MANAGER

BERT PIERSON

Bert is sales manager at Kelowna Realty Ltd. He was appointed to this position in November of 1965, because of his excellent past. He was born at Kincardine, Ont., and received his education there. He moved to B.C. in 1948 and spent eight years in the east Kootenays. From 1954 until 1964, he was employed with a large insurance firm and prior to moving to Kelowna in May, 1964, he was the company's district manager at the Peterborough, Ont. office.

Bert successfully completed his UBC real estate course in late 1964 and has had wide experience in dealing with the public. His knowledge of business practices enables him to offer sound advice on homes and business enterprises.

Which Firm? Here's Answer For Kelowna

Often people ask themselves which firm they should appoint as their exclusive agent to handle their property successfully.

Kelowna Realty Ltd., 243 Bernard Ave., has provided the answer.

The men there have attracted to their firm other men with outstanding ability and experience who are versatile, have no vested ideas and who approach difficult jobs enthusiastically.

The company's morale is high because responsibility is delegated, objectives are shared and the staff is well-informed. What it tries to do is create an atmosphere which is conducive to maximum effort, while not restricting the men in an enlargement of regulations with a lot of do's and don'ts.

On this page, backgrounds of some of the men are given. Even since this issue was started, there have been staff enlargements and an expansion program planned that will more than double the organization.

Last year, and again this year (for the first three months) Kelowna Realty listed and sold more properties than any other real estate firm in the entire Okanagan Valley, through Multiple Listing Service. It is a young company and has done many things never before done according to normal standards.

A lot of its success can be held down to honest enthusiasm and hard work on all levels.

BRANCHED OUT

Branching out from the successful parent company are other subsidiary firms. They are: Lucwood Holdings Ltd., a company which holds certain tracts of land and lots; Okanagan Finance Corporation Ltd., which has financed several subdivisions and places mortgages; Kelowna Agency (1964) Ltd., which specializes in insurance and Okanagan Pre-Built Homes Ltd., which builds and designs homes to customers' requirements.

On the staff are two trained architects, assisting in planning, drafting and building homes as well as commercial projects.

This versatility has contributed greatly to Kelowna Realty's success.

Because Kelowna Realty expects a 50 per cent increase in business this year, it needs many listings in order to keep up with the growing demand of customers wishing to buy homes.

The company would consider it a real privilege to serve you. Should you select the firm to sell your property (and you couldn't make a better choice), it will put forth every effort to secure the maximum price for your home.

GRANT DAVIS

Grant was born and educated in Weyburn, Sask., where his father farmed for many years. He was employed for almost 10 years with the Western Construction and Lumber Co., of Edmonton, working for them in northern Saskatchewan. In 1940, he married Kathleen Walker, of Gravelbourg, and farmed in the Weyburn district for six years. He then went to the Weyburn Co-op Association in 1948 and was manager there until 1950.

He then went into the garage business for himself, operating a Volkswagen dealership and a large Shell Oil garage bulk oil agency for three years. He came to Kelowna in 1962, and until recently operated Davis Shell Service here. He is a member of Masonic Lodge No. 20 of Weyburn and of the IOOF No. 12, also of Weyburn. Grant is an avid curler and golfer. He recently graduated from the UBC real estate course and is just making his start in the real estate business. He has four children, Patricia, 24, of Trail; Gary, 21, of Vancouver; Keith, 19, Kelowna and Wendy, 7, at home. The family resides at 1488 Mountain Ave.

DONALD GREEN

Mr. Green was born and educated in Winnipeg, where he received his senior matriculation. He joined the Imperial Bank in 1939 as a junior ledger keeper and worked with the bank until 1940, when he joined Marshall Wells as a stock clerk. He worked there until 1942, when he joined the army. He was discharged as a Sergeant in 1946 and joined General Motors Products of Canada as inventory and office supervisor. In 1954, he went to Rucack and Cullen Realty in Winnipeg and in 1956 formed his own realty company, named Green and Scott Realty. In 1957, he took a job as branch manager of Ammo Power Tools and when the company was bought by Omark Industries in 1960, was branch supervisor. In 1963, he went to Vancouver and worked for Ammo Power Tools, before taking the UBC real estate course. He worked for a short time for Dexter Realty in Vancouver and joined Kelowna Realty Ltd., April 1, 1966. He has four children, Richard, 19; Paul, 18; James, 16; Marilyn, 12 and Cindy, two. His wife's name is Do-reen.

G. O. TUCKER

Gerry was born in Rivers, Manitoba, where he completed his junior matriculation at Rivers Consolidated school. He then took up studies at the Chicago Vocational school, obtaining a diploma in refrigeration and air conditioning in 1938. He did various junior banking duties in the Canadian bank of Commerce in Vernon in 1938, working up to assistant in the next three and a half years. He joined the RCAF in 1941, where he took pilot training. After rigorous training and graduated as short navigation instructor pilot in 1943. He was promoted to Flying Officer that year and served in Regina and Contract, Ont., until the end of the war. He rejoined the Vernon bank in 1945 and was transferred as accountant to Fernie in 1947. In 1955, he purchased a fruit farm at Okanagan and lived there until accepting a position as credit manager of Okanagan Equipment. In 1956, formed Southern Acceptance Corp. Ltd. with six other men and bought Vernon Lumber Co. Ltd. with two other men. In 1960, he resigned from Okanagan Equipment and joined Mercier and Neil Realty Ltd., Vernon, as an insurance salesman. He joined Kelowna Realty Ltd. in July 1964. He was appointed manager and director of Kelowna Agency (1964) Ltd. in 1965. This department sell every type of insurance.

Don't Worry About A Thing These Men Dying To Help Out

There is a firm in Kelowna that is simply "busting out all over" to help you build the house of your dreams.

It is Okanagan Pre-Built Homes Ltd., 243 Bernard Ave. Under the direction and management of Bill Lucas this department is geared to give the utmost consideration when planning your custom built home.

You can "do-it-yourself" or contract the building out. Either way Okanagan Pre-Built Homes Ltd. can show you step by step how to save money.

If you contract with Okanagan Pre-Built Homes, you get your plan (custom designed), the materials at wholesale price, inspection during the progress of construction to protect your

investment, and a professional finished job. All sub-trades are checked as to price and materials used. There is no chance of inferior quality here.

Bill Lucas makes your plan for you, drawn up just the way you always pictured it. If you build the house, you save money and get assistance every time you need it. You get step-by-step instruction from an experienced man, who will show you how to start with the foundation, how to square, what prices to pay for sub-trades and what to do about plumbing, heating, wiring etc.

All you have to do is move in and bring to your neighbors about your professionally built home.

Many Take Advantage Of Pre-Fab Opportunity

Have you ever thought of building a prefabricated home? It's as simple as falling off a log.

There are a tremendous number of advantages with a pre-fabricated home. First of all there is the economy and special satisfaction of doing-it-yourself.

Secondly, you know you get a quality home — because your house has been completely laid out and cut to size before you receive it.

Simply place the order, wait for it to arrive and then, like magic, the home of your dreams appears just where you always wanted it. A solid, substantial, roomy, bright and clean home

that is convenient and modern in every respect.

Best of all, it's your home. You select the size and the floor plans from an almost limitless selection of plans available to you. You select those little extra options, which, together with the imposing number included in the plans as standard equipment, make this quality "prefab" home your personal possession.

Just think: You can take possession of your home in just three days. None of that long waiting while carpenters, plumbers, electricians and countless other people work long weeks on your future home.

FEATURES

Not only is this a fast, efficient method of obtaining your spanking new home, but you are guaranteed of NHA acceptance, NHA standards, CMHC inspection—acceptance, solid—maple-kitchen cabinets, guaranteed pre-finished aluminum or cedar siding, aluminum window casings and combination doors, along with stainless steel double sink in the kitchen, vanity bathroom, cultured marble vanity tops, durable formica counter tops, top-line furnace units for

any fuel—and glass-lined hot water tank. These are just a few of many wonderful features.

Ask Any Building Expert Modern All The Way

A new method of building new homes is rapidly rising in popularity among home buyers. It is the pre-fabricated home.

Many people who now own pre-fabricated homes claim there are a tremendous number of advantages with a pre-fabricated home. First, they claim, there can be the wonderful economy and satisfaction of doing it yourself.

Secondly, you know you get a quality home—because your house has been completely laid out and cut to size before you receive it. Simply place the order, wait for it to arrive and then, like magic, the home of your dreams appears just where you always wanted it. A solid, substantial, roomy, bright and clean home that is convenient and modern in every respect.

Best of all, they claim, "it is your home. You select the size and floor plans from an almost limitless selection of plans available to you."

The person building the home can select many extra options which, together with the many included in the plans as standard equipment, make the quality "prefab" home your personal possession.

Home owners say this is not only a fast, efficient method of obtaining a new home, but the buyer is guaranteed of NHA standards and CMHC inspection and acceptance.

People have been known to ask themselves if a pre-fabricated home is structurally different from other houses, or if pre-building detracts from the appearance of the home.

Building experts point out a pre-fabricated home is modern in every respect. The structure is different and solid as any other home. When the house is finished, there is nothing on the interior or exterior which sets it apart from the conventional or old-fashioned "site-built" house, other than its quality appearance.

A prospective home-buyer can qualify for a mortgage with a pre-fabricated home. It is built to all requirements of NHA, CMHC and VLA—along with the Farm Credit Corporation.

If the home buyer cannot find a suitable plan for a pre-fabricated home in the files at Okanagan Pre-Built Homes, the men there will design a plan specially for his requirements. They are now equipped to give a custom-designed pre-fabricated home.

Okanagan Pre-Built Homes has a selection of summer cottages, community halls, churches, chapels, schools, service stations and many other pre-fabricated structures.

If required, the men at the firm say they will give personal assistance, step by step, in the creation of the home or will assist in the preparation of a plan.

Bill Lucas, head of the building department, will be drawing the plans and is guaranteed to complete satisfaction in purchasing a "prefab."

It is possible to obtain a look at pre-fabricated home plans and to get some information about them by stopping at Kelowna Realty Ltd., 243 Bernard Ave., and asking the manager, "The Art of Modern Living," or by a plan book sale.

CAPILANO STYLE HOME — YOUR ANSWER TO MODERN LIVING

Management and Staff

DOWNTOWN OFFICE CONVENIENT

Right From The Start A Real Success Story

The story of Kelowna Realty Ltd. is one of success from the start. It was formed in an interview, we asked the management staff, to get off to such a roaring start in a city where real estate companies are common. Jack said the company started two years ago with a few desks and an old beaten-up car. It was a real success story from the start. It was formed in an interview, we asked the management staff, to get off to such a roaring start in a city where real estate companies are common. Jack said the company started two years ago with a few desks and an old beaten-up car. It was a real success story from the start.

mean long hours (and there were many). The firm was run so each company would help the original organization and this proved to be a team that was hard to beat in the business world. **STICKLERS** One of the things that we found interesting about the history of this company was the many hours spent on seemingly minute details. They were unimportant to the bystander, but now, when you see the colorful window display that catches the customer's eye, listen to the men of the office, who fluently speak such languages as German, Dutch, Russian, French and Italian, and see that their fleet of cars all have a distinctive emblem, the reason for this detail is obvious. It was designated to make almost every customer feel absolutely at home when in the company of the men there. **DOUBLE SERVICE** Another idea was to have two offices, one in Kelowna and the other in Holland, to serve district people the drive into the city. Very simple, but again making the customer feel his personal welfare is foremost in the management's mind (and it is).

Another advantage of two sales offices was that a survey shows two outlets trying to sell the same thing boosts the selling chances of the property by about 25 per cent. In its second year of operation, Kelowna Realty sold more real estate properties than any other real estate firm in the Okanagan Valley. This is proof enough that paying attention to small details does pay off. We asked the management if it was not afraid that other firms would copy management methods and unbeatable selling techniques. The men smiled and said, "Sure, there always is a chance, but it's being first with the best that counts."

They said they have plenty of ideas left in their little bag of success and it is hard to catch up to a team that is continually coming up with bigger and better sales ideas for customer satisfaction. **CONFIDENT** Their complete confidence in their organization showed they were not worried at all about their competition. Most nights you find the lights burning in the office, as the men work long hours, determined to sell a deal that they know is top. They take this very seriously. Clients appoint them as their exclusive agents and they often spend long hours which other companies would call unnecessary, pouring over details to insure the best deal for their client. The management often calls the entire staff into the office, simply to give instructions about the sale of a \$1000 property. The value of the sale means nothing. One sale is given as much priority as another. We found it was a simple matter to contact the management. **AVAILABLE** At Kelowna Realty, the staff is available for conference almost any hour of the day and night. The doors are wide open and the men have made it a point to be in or available at all times. The first three months of this year proved, as did last year, this sales policy pays off. Kelowna Realty is No. One on the M.L.S. sales chart for January, February and March. It seems to us it will continue that way for some time to come, having seen the plans for the years ahead. A manager says: "We find people like to deal with progressive-minded people. We have tremendous support from the public, which we could not have done without. This has contributed to our rapid growth in such a short period of time."

COMPANY PARTNERS

R. J. BAILEY

J. M. VANDERWOOD

R. J. (Bob) Bailey, one of the partners of Kelowna Realty Ltd., was born in Guelph, Ont., where he received his early education. Later he attended the University of Western Ontario, London. Bob has had extensive experience in selling and sales management, having spent ten years with an Eastern sales chain prior to the war. From 1912-1915 he served with the RCAF. Upon discharge from the RCAF, he joined the sales staff of one of Toronto's leading Real Estate companies and in 1950 he was promoted to general manager of that firm with five city branches. During this period Mr. Bailey completed a course at National Training School in Omaha, Nebraska in sales management. The Baileys always had a desire to live in the beautiful Okanagan and to get away from the "big city" life. They came to Kelowna in 1956. In 1958 Bob associated himself in a Real Estate business and has been in this field ever since. In 1964 Mr. Bailey with his partner, Mr. Vanderwood established the company in the name of Kelowna Realty Ltd. Bob and his wife Lillian have three children, Douglas, Ronald and Barbara. The family's favorite recreational pastimes are golfing in the summer and skiing in the winter.

Jack M. Vanderwood comes from an architectural and insurance background with long training sessions in each field. Born in Drachten, Holland, he graduated from high school in Holland in 1932 with majors in bookkeeping, and commercial correspondence. From 1939 to 1941 he studied architecture and then fell heir to the company's insurance portfolio in Drachten when the German Occupation Forces dictated a splitting of the company. He operated the fire insurance office and two branches from 1941 to 1952 and is still a partner in that firm. In 1954 he studied in England and from 1955 to 1957 he worked in London and study insurance at The City of London College. That year he came to Canada and was assistant accountant for the company during the time Okanagan Lake Bridge was being built. He joined C. E. McCulloch Realty Ltd. in 1960 and increased his shares in the company until he and Mr. Bailey purchased the company two years ago. In 1961 he completed the UBC real estate salesman's course and in 1963 he completed "the agents' course." Married in 1941, the Vanderwoods have three children, Martin, a high school boy, working in a law office, and Paul, at UBC.

Need Help With Planning? Talk To Those Who Know

The building department of Kelowna Realty Ltd., called Kelowna Pre-built Homes, is up and ready to roll. The department, under the charge of Bill Lucas, has been set up strictly with the home buyer in mind. The men of the department will draw you a plan of your new home. They will help you with our new home, doing everything from pouring the cement to framing, finishing, chipping cupboards, wiring, plumbing and heating, and decorating. You can buy material rough them at wholesale price and let them do all or part of the work. This is a complete comprehensive building program, with personalized custom designed plans, from program, the department even helps you choose a lot and finance the home. The men estimate the cost of building for you, draw you a plan to your specifications and give you a list of all the work as you wish them to do. This is the first fully complete comprehensive real estate service in Kelowna and is 100 per cent efficient in almost every aspect. It covers purchase and sale of real estate, first and second mortgages, insurance, and renovations, and subdivision development.

the men working in the department to give you your best money value. When he left elementary school in Holland he took a four-year course at a technical school where he learned to draw plans, sharpen tools and make doors, windows and cabinets. This was a complete training program to become an apprentice for further study as an architect. After this, he was an apprentice with a well-known architect for seven years. He then took up further studies and became a qualified architect, passing his VBO exam. This gave him qualifications not only to draw but also to practice as a contractor. **TOP MAN** Mr. Lucas then came to Canada and took up contracting. With his experience and thorough knowledge of construction he soon was "head and shoulders" above other men of the same trade. Now, he has changed his operation to the effect that he will spend more time in supervising, drawing and sketching at the Kelowna Realty office. You can actually see him drawing your house, giving you a sneak preview into the future. It's an experience you shouldn't miss. Why not drop into the Kelowna Realty office and ask for the complete color album with beautiful homes? A customer of his that is satisfied is impossible to find.

One Party Concept Dying After Ousting Of Nkrumah

FREETOWN (AP)—Wary of a coup, Prime Minister Sir Albert Margai is relaxing his drive to make Sierra Leone a one-party state. The fall of Ghana President Kwame Nkrumah in 1966, he drove hard to eliminate one of Africa's few remaining multi-party political systems. Margai, 54, became prime minister on the death of his predecessor, Sir Milton Margai, in 1963. He drove hard to eliminate one of Africa's few remaining multi-party political systems. Margai, 54, became prime minister on the death of his predecessor, Sir Milton Margai, in 1963. He drove hard to eliminate one of Africa's few remaining multi-party political systems.

Who Discovered America
Russians Brand Map Phony
LONDON (AP)—A Soviet Leningrad University, ex-geographer says the "Vandland map of 1492" — supposedly showing America 52 years before Columbus discovered it — is a fake and rather a too clever one. The Vandland map appeared in a book called The Vandland Map and the Farther Relation published by Yale University Oct. 11 last. The Russian, Vladimir Nevsky, a lecturer in geography at Leningrad University, says the map is a fake and rather a too clever one. Ever since the American university published the book and the map, Russian scientists have been of the opinion that the map "reproduces too many of the quirks of the 15th and 16th century Arabic cartographers to be true," Nevsky says.

Incentive System
Paid No Dividends
TORONTO (CP)—An Ontario attraction board has ruled in favor of a worker who has been denied a greater production by an incentive system. The board unanimously ruled that a worker who has been maintaining an acceptable output of production cannot be fired if he is unable to produce more under new time-study systems. The case involved Curtis Products Ltd. of Cobourg, Allan Munroe, the employee, and the International Association of Machinists (IAM). Information given to the board was that five of more than 100 jobs in the plant had been placed on a new system for scheduling remuneration of the five men concerned. Mr. Munroe turned out to be low man.

PORTS ON PARCHEMENT
Their main evidence was based on pinpointing the date of manufacture of the parchment and matching wormholes. The Russian's attack is aimed at the authenticity of the map itself and is not directed against the scholarship of the British and American researchers and authors of the book. Nevsky says the Vandland map and other early Arab cartographers show the River Niger which flows into the Atlantic, as a branch of the Nile and the southern end of Africa so far to the east that "the Indian Ocean becomes a sort of canal." Also surprising, says Nevsky, is the fact that Greenland is shown as an island. Most maps of the 15th and early 16th century till show it as part of the American continent, he notes. This point also has been disputed by some geographers, who pointed out the map-makers of northern Europe knew more than the southern European geographers in the 15th century, when circulation of scientific findings was slow. Skelton is ill but he and Marston will have a chance to defend themselves against the Russian charges at the annual session of the British Association for the Advancement of Science, which will be held later this year at Nottingham, England.

Cuban Radio
Goes Underground
MIAMI (AP)—Cuban underground sources report a powerful radio station has begun broadcasting from a three-story suburban Cuban military command post. Reports made public by the Citizens Committee for a Free Cuba, said the installation, at Beljoral near Havana, was constructed by the U.S.S.R. with reinforced concrete and a steel frame for air attack protection. The committee, an American anti-Castro group, said the radio's principal function may be "to maintain clandestine contact with guerrilla groups in Latin America."

Security Inquiry
Opens Monday
OTTAWA (CP)—The first public hearing of the Munster judicial inquiry into sex and security allegations will be held Monday but an inquiry spokesman said Friday the doors may not be open for long. Mr. Justice Wishart Spence of the Supreme Court of Canada announced the session in a prepared statement. The statement did not indicate whether the session would be open to the press. However, a spokesman said it would be at the start but probably only for a matter of minutes or an hour or so. Mr. Justice Spence is inquiring into allegations by Justice Minister Cardin that Opposition Leader Diefenbaker, when prime minister, mishandled the Munster case by not referring it to the justice department's legal officer for an opinion. Mr. Cardin said Mrs. Munster, a blonde German woman of 38, had been active in espionage work before entering Canada in 1955.

Use This Needle, Says PM
To Convening Young Liberals

OTTAWA (CP) — This week-end's convention of the Young Liberal Federation of Canada is welcome to use the needle on the Liberal party, Prime Minister Pearson said Friday night.

He asked only that the federation remember needles are for sewing tears as well as puncturing skin. The convention appeared well-launched in both uses of the needle even before Mr. Pearson spoke.

Trade Minister Waters was treated easily to "not-seat" questioning, but the first sittings of nine Young Liberal policy commissions assigned brass tactics to some party matters.

About a dozen delegates discussing party structure considered a proposal for a central control of money and policy in regional "growth centres" wresting power from "an apocryphal or ruling elite" of Liberals in Ottawa. Another group, tackling the question of political morality, heard some eyebrow-raising figures on party spending.

About 300 of an expected 400 delegates heard Mr. Pearson voice extreme concern for the conduct of parliamentary business. An all-party agreement to abstain from debates was of "utmost importance."

The prime minister said that after the Commons resumes Tuesday, supply, budget and re-

distribution debates will leave a maximum of only 20 days for 15 pieces of high-priority "social, financial, labor and economic" legislation July 1. The Commons might have to extend sittings into July and August.

He said Commons debate in the 11 weeks before the Easter recess had reached the "lowest point of my official and political career." But in the debate on capital punishment it had reached "almost the top point."

He was staying in political life "as long as health and strength allow" because of his desire to work for national unity.

During his hour in the hot seat, Mr. Waters was asked about his aspirations to Mr. Pearson's job.

"There's no leadership contest so I'm not a candidate," he replied.

The trade minister had little enthusiasm for the Canada Development Corporation as a government project. He acknowledged a feeling "quite deep" among Western Canadians that they were being neglected by the Liberal party, but the feeling had "no real basis in fact."

SEEN'S PRESIDENCY
David Smith of Toronto, one of two candidates campaigning to succeed Michel Robert of Montreal as Young Liberal president, was chairman of the commission on political morality.

He favored government-subsidized election campaigning and publication of all contributions to campaign funds. At present, he said, campaign expenses for a single candidate can run as high as \$100,000, but only a fraction of this amount is reported.

It was relatively easy to get funds at campaign time, but between elections the national headquarters staff of 21 sometimes had to delay expenditures for a few hundred dollars for lack of funds.

The party's senior policy committee last year operated on \$200, which explained why a list of its policy formulations were "lumpy."

Mr. Smith said most federal candidates, 21 of about 13,000 apiece from the national headquarters for their campaigns, but one Liberal in the Maritimes drew \$35,000 last Nov. 8 for a successful battle.

Mr. Smith's opponent for the leadership is Frank Shumock, a South St. Marie lawyer.

NDP Endorses Stand On Aid
NEW WESTMINSTER (CP) — Delegates to the annual convention of the provincial New Democratic Party have endorsed the stand of national leader T. C. Douglas in favor of supplying medical aid to civilian war victims in north as well as south Viet Nam.

Delegates voted Friday night to maintain support for demands made by NDP members of parliament that the Canadian government supply medical aid to the people of Viet Nam without political discrimination.

Also debated but not acted upon was a resolution calling for a UN peace-keeping force in Viet Nam and recognition of Communist China. The resolution was referred back to the executive for amendments and will be further debated later.

Opening lead—nine of clubs. The Vienna Coup is really an ordinary squeeze, and it is a pity that, on account of its name, the play sounds a little difficult than it is. About the only difference between a Vienna Coup and the ordinary squeeze is that declarer goes out of his way to establish a high card for the defense before he applies the squeeze.

Here is a simple case. South is in seven notrump, which seems to be a cinch until, after taking the ace of clubs and A-K of diamonds, he discovers that West has five diamonds against him.

With only 12 tricks now at his command, he catches the king of clubs in anticipation of a later squeeze. It is in this cashing of the king of clubs, establishing East's queen as the high club, which is called the Vienna Coup.

South then proceeds to take three rounds of spades and the QJ of diamonds to produce the following position. East not yet having played to the last trick:

TENNIS RACKET

By MARI McFADDEN

Be of good cheer tennis friends. This month marks the beginning of the new tennis season. You can now visit the courts, whistling as you pace off the boundaries and thus watching neighboring spectators, especially the newcomers.

As you whistle you may also work. Spring cleaning has been the order of the month to supplement the work done by the groundsman. The party line has it that work parties make the participants feel more a part of the club. This sounds like propaganda of the worst sort, but I am not sure.

After work came play and a few members were able to try out the courts on the Easter weekend.

It is expected the beginning of what the tennis club hopes will be a long, active and happy season for all the tennis addicts.

Here are some of the tennis activities planned for the next few months. If you are interested and wish to take part in any of them, I suggest that you get this out on the way and bring your tennis shoes, racket and other necessary items.

General Openers Day—Sunday, April 17 at 1 p.m. at the God and Country Club courts. Come along and bring a friend.

Annual General Meeting—Sunday, April 24 at 3 p.m. in the clubhouse. Your attendance at this is a must. If you are truly interested in tennis in Kelowna, its progress and direction. Be prepared to voice any criticisms or suggestions and to ask questions. There will be an election of officers at this meeting.

May 14, 15—Okanagan Mainline Tennis Tournament—Five events—at Kelowna. A new competition for interior players, sponsored by the Kelowna Tennis Club. Come out and help to make this a big tennis success.

Plans for the next three events are tentative. Both plans and dates may be changed.

May 20—Junior club play—inside Pentstemon—at Kelowna.

June 3—Junior tournament—at Kelowna.

June 10—Junior club play—inside Pentstemon—at Kelowna.

The Amateur Cup competition was very popular. To receive it has long been a hope, we would like to make it a reality.

June 18—revere Amalgam Cup—Ladies' Doubles—at Kelowna.

We would also like to "revere" the original trophy. Any information as to its whereabouts would be greatly appreciated.

The next four tournaments are "old faithful" and known to all Kelowna tennis players.

July 1 weekend—Hawkeye Cup—Men's Doubles—at Vernon.

July 3 weekend—Hawkeye Cup—Mixed Doubles—at Kelowna.

July 5 weekend—Okanagan Championships—at Kelowna.

July 7 weekend—Okanagan Championships—at Kelowna.

October 7 weekend—Okanagan Championships—at Kelowna.

October 9 weekend—Okanagan Championships—at Kelowna.

Vets Come Through For Wings But Rookies Are Surprising

CHICAGO (CP)—A number of hockey fans are expressing coveting like a 25-year-old. The three of the team's young veterans defenseman has been Bryan Watson, 23, Paul Henderson, 23, and Roger Crozier, 24.

Watson, a Montreal Canadiens castoff, has scored two goals in the first game of the Stanley Cup semifinals.

Keeping pace with these goals. But more important, he has scored three goals with captain Alex Murnighan.

The Red Wings roster does include senior players like Gordie Howe and Bill Gadsby, both 36, and Andy Bathgate, 33.

But younger players have carried a big share of the load.

The Wings and Hawks are tied 2-2 in the best-of-seven series. Since the set opened here last Thursday, Detroit has outscored the Hawks in every game.

outscored them 14-5 and injured at least five Chicago players along the way.

Howe has turned in his usual masterful performance, scoring two goals and assisting on three.

Bathgate, no longer the dominant figure he was with New York Rangers in past years, has nonetheless contributed three goals.

Meanwhile Gadsby has been Delvecchio and Norm Ullman, holding the illustrious Bobby Hull to one.

Actually, Watson isn't even accountable for the one tally managed by the Golden Jet in the series opener. It was in the next game that coach Sid Abel assigned the aggressive right winger to the job of shadowing Hull and the National Hockey League scoring champion has managed only one assist since.

Henderson, a third-year Red Wing, was one of Detroit's most effective forwards even before he fired the first two goals in Thursday night's 3-1 victory.

Crozier, of course, is the key to Detroit's success just as he has been for the last two seasons. The diminutive netminder has limited the Hawks to an average 1.25 goals in the four games and has come up with one key save after another.

SHARES THE CREDIT
Watson, who was getting much of the credit for containing Hull after Thursday night's game, said:

"Whenever Hull did get away from me, Roger was there."

Then too, the Wings have been getting top marks out of Dean Prentice, whom they got from Boston Bruins during the season. Prentice has scored two goals and assisted on another.

Delvecchio, 31, has set up six goals to score more points than any other player in either semifinal series. Ullman, normally a tighter scorer himself, has been used defensively against the Hawks' Scooter Lane, chasing rival centre Stan Mikita onto a new assignment with Hull in an effort to break clear.

Ullman has no goals to Mikita's one but has outscored him by five points to three.

Two goals by Floyd Smith and one by Bert Marshall complete Detroit's scoring.

JAPANESE GROW TALLER
The average height of Japanese basketball players has increased by 1 1/2 inches since 1900.

WOMEN ON THE FAIRWAY

Because of the inclement weather last Tuesday, a new draw has been established for April 13. The draw follows:

9:00—M. Green and M. Shaw vs. N. Beattie and M. Henderson

9:05—J. Flynn and K. Carel vs. M. Wilkes and I. Parker

9:12—G. Johnston and G. Holand vs. G. Metcalfe and M. Zeron

9:
